No Tubes or Canisters, Just Great Service!

At Dort Federal, we are always looking for ways to use new technology to simplify and improve the service you need, and Video Teller Machines can do that with greater convenience. These machines will be located inside our three new branches in Clio, Owosso and Swartz Creek. You will be able to do your banking at non-traditional times or experience faster in-branch banking at busy times of the day by accessing a live teller. Our members will no longer have to wait for transaction canisters to be transported back and forth through vacuum tubes to the teller they are transacting with. A simple touch of the video screen is all that is needed to start the video conference with a live teller. Since there are no envelopes or deposit slips to complete, the service will be faster. Consider our Video Tellers as your Express Lane.

Almost every transaction you can do with a face-to-face teller can be done through the Video Teller Machines. You can make deposits, withdrawals, transfers, loan payments, cash checks and more with assistance from a Video Teller. These machines have ID scanners, a simple scan of your identification is all that is needed. Plus, a copy of checks that have been deposited will print on the back of your receipt. We hope you enjoy this new efficient, personal and convenient service experience!
